Data analysis of the completers job placement (n=58)	
Completers job placement	Percent (%)
Public school	15/58 = 26 %
Private school	34/58 = 58.6 %
Federal educational programs	7/58 = 12 %
Day care	1/58 = 1.7 %
Other works related to the educational area	1/58 = 1.7 %

The data shows that 58.6% of our completers are working in private school, while 26% of completers are working in public school. Moreover, 12% of completers are working in federal programs such as Head Start & Early Head Start. Finally, 1.7% of completers are working in Day Care and another 1.7% is working on another works related to the educational area. On the other hand, for the past three years we had 109 completers reported through the Annual Report, which 37 (34%) from the table above are placed in a school scenario.

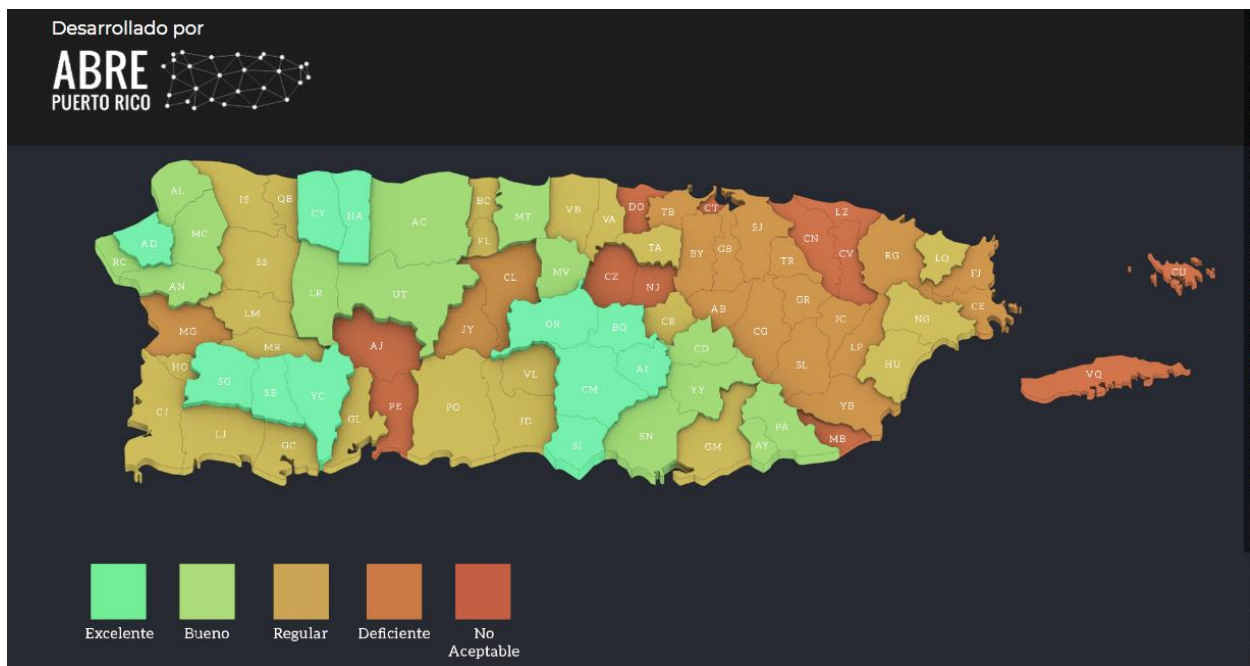

Image 1: Result of META tests by municipality. Obtained from: <https://abretuescuola.org/es#hps-map>

The website <https://abretuescuola.org> is an interactive tool that allows parents, teachers, and administrative staff of public schools in Puerto Rico to see how their school's performance compares to others in the country. Schools' performance is scored based on the results of standardized META tests, the College Board, and the graduation rate. Depending on the results of the schools, they are awarded a grade (A, B, C, D or F). If we look at the towns where our completers are working, their students META results fall into the excellent (A), good (B), and regular (C) categories.
